JOIN THE ACTION PACK!

THE ACTION PACK

recycle

Recycling saves energy and saves natural resources.

It also protects wildlife. Our rubbish can harm animals on the earth and in the oceans, and harvesting new materials instead of recycling old ones destroys their habitats.

The Action Pack Recycling Challenge: Mission 2
We're calling on children aged 7 to 11 from across the country to join the Action Pack and take protecting the world we all share into their own hands!

Your mission is to create a film to educate grown-ups about how recycling can help the world we all share.

Your film must:

- feature one or more memorable animal characters made of recyclable materials to persuade people to recycle more, and recycle better
- be no longer than three minutes
- not include any person's face or name
- not include music or photos that don't belong to you

You can create your own script, or use or adapt the template at www.actionpack.co.uk

You can work on your own, or with a group of friends (up to four people in total).

Ask an adult to send your film to **www.theactionpack.co.uk** for a chance to win a prize.

You can find the entry terms and conditions at: www.theactionpack.co.uk

TOP TIPS

Creating your character

Did you know, junk modelling isn't always as eco-friendly as you might think!

When making your characters out of recyclable materials, please follow these top tips:

- Find materials that are the colour you need, rather than using paint

- Don't use glitter or stickers, as these products aren't recyclable

- Instead of using glue, join the parts of your model together with string, blu tack or butterfly clips

- If you use tape, make sure to remove this before recycling your junk models or buy recyclable tape

- Can you add any other natural materials (e.g. sticks, straw, shells or stones) to your animal rather than unrecyclable materials?

You'll find inspiring examples of eco-friendly junk models created by Action Pack children in the Mission 2 PowerPoint.

Creating your film

Use the Mission 2 PowerPoint to help you write your script – or use the template – www.theactionpack.co.uk
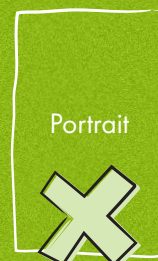

Have a practice run through, and time yourselves – make sure that you can get through your script in no more than three minutes

Make sure everyone speaks clearly and check that the sound in your video is easy to hear.
